C O P Y

4 July 1956

Honorable Raymond W. Blattenberger
The Public Printer
Washington 25, D. C.

Dear Mr. Blattenberger:

As you probably know, the Central Intelligence Agency has been authorized to construct a new headquarters building and our plans are proceeding for this facility to be located on the Bureau of Public Roads Research property in the vicinity of Langley, Virginia. In line with our over-all objective to consolidate all of our headquarters personnel and activities in one building, we anticipate consolidating all of the printing and reproduction facilities which now service the Agency with classified printing. While it will probably be about three years before we actually move to our headquarters, the architect is now in the process of drawing detailed plans and specifications. Plans for our classified printing facility must, therefore, be completed in the very near future.

Inasmuch as the GPO-State Service Printing Plant located in the basement of this Agency's Administration Building at 2430 "E" Street, N. W., is now doing a substantial part of our classified printing, I believe that it would be mutually advantageous for our representatives to meet at an early date to discuss this matter and to work out a plan which can be implemented at the appropriate time with a minimum of inconvenience to both agencies. If this is agreeable to you, Colonel L. K. White, one of my Deputy Directors, will be glad to represent me in this matter. Colonel White may be reached by telephone on Code 143, extension 717.

Sincerely,

/s/

Allen W. Dulles

UNITED STATES GOVERNMENT PRINTING OFFICE
WASHINGTON 25, D. C.

OFFICE OF
THE PUBLIC PRINTER

July 9, 1956

Mr. Allen W. Dulles, Director
Central Intelligence Agency
Washington 25, D. C.

Dear Mr. Dulles:

Thank you for your letter of July 4 concerning the construction of a new headquarters building for the Central Intelligence Agency and the consolidation of all printing and reproduction facilities which are now serving the agency with classified printing.

We shall be very glad to enter into discussions in order to develop a plan which can be implemented at the appropriate time in the future. I have designated Mr. Harry D. Merold, Production Manager, to represent me in this matter. Mr. Merold is currently on leave through July 16, but he will contact Colonel White, your representative, shortly after his return.

I appreciate very much the friendly tone of your letter, and I am sure that we shall be able to work this matter out to the entire satisfaction of the Central Intelligence Agency.

Very truly yours,

RAYMOND HATTENBERGER
Public Printer

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Negotiations for the Transfer of the GPO State Service
Printing Facilities to the Agency for Operation in the
New Headquarters Building

1. This memorandum contains a recommendation for approval. Such
recommendation is contained in paragraph six.

2. The question of the disposition of the GPO State Service printing
plant located in the basement of the Administration Building has been
under consideration for some time. This facility exists primarily for
the purpose of printing the NIS publications and ORR map work. Approx-
imately 90 percent of the production of the plant is Agency work. Due to
the distance involved, the possibility that the building in which this
plant is located will eventually be demolished, and the inadvisability
of hauling classified printing the considerable distance to the new head-
quarters building, it is planned to merge this facility with the Agency's
facilities in the new headquarters building. This will permit the printing
facility in the new headquarters building to perform all of the Agency's
classified printing.

3. Numerous steps have been taken looking toward this consolidation
of printing facilities. These steps include (a) development of plans
for the printing plant in the new building which include the space and
equipment required to do the printing now done by the GPO State Service
plant; (b) preparation of equipment replacement schedules which will
permit the procurement of necessary new and replacement equipment over a
period of three years; and (c) discussions have been held with the staff
of the Joint Committee on Printing to obtain their informal approval of
the merger and their advice and guidance on the method of proceeding with
these negotiations.

4. The next step seems logically to be to begin negotiations with
the Public Printer. These negotiations are for the purpose of obtaining
the Public Printer's complete approval of the acquisition of the State
Service printing plant by the Central Intelligence Agency. Specifically
it is planned to negotiate the following:

a. The transfer free of cost to CIA of all equipment originally
purchased by CIA or its predecessor agencies and now in the GPO State
Service plant. A list of this equipment is attached.

SUBJECT: Negotiations for the Transfer of the GPO State Service
Printing Facilities to the Agency for Operation in the
New Headquarters Building

b. The transfer to CIA of all other equipment in the State Service plant which will be needed in the new Agency plant at prices to be negotiated but not to exceed a total of \$225,000.00. A list of this equipment is attached.

c. The transfer of GPO personnel employed at the State Service plant to the Agency at such time as the operation begins in the new headquarters building. (This involves approximately 124 personnel working two shifts and will require a corresponding increase of the personnel ceiling of the Office of Logistics).

d. Satisfactory schedules for the transfer of equipment and personnel.

5. After satisfactory completion of the above negotiations, it will be necessary to obtain numerous other approvals. These include the Joint Committee on Printing, the Bureau of the Budget, and possibly the General Accounting Office. It is also possible that discussions will be necessary with a number of the State Service plant's customer Agencies including Atomic Energy Commission and the Department of State.

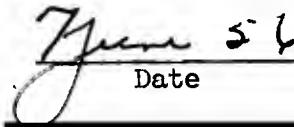

6. It is recommended that authority be granted the undersigned to conduct the above-mentioned negotiations.

[REDACTED]

25X1A

 JAMES A. GARRISON
Director of Logistics

The recommendation contained in paragraph 6 is approved:
